

POST-DOC RESEARCH FELLOW IN CLIMATE POLICY, INNOVATION, AND INTERNATIONAL TECHNOLOGY TRANSFER

Rome, Italy.

The Department of Computer, Control and Management Engineering (DIAG), Sapienza University of Rome, Italy, invites applications for a position as

Post-Doc Research Fellow in Climate Policy, Innovation, and International Technology Transfer

to be appointed on September 3, 2013.

The position is for two years.

The position is connected to a project directed by Professor Francesca Sanna-Randaccio (DIAG, Sapienza University of Rome).

Responsibilities and duties

The position will focus on the analysis of mitigation policies, innovation and international technology transfer by Multinational Enterprises (MNEs) within the renewable energy sector. In particular, the successful candidate will collect and analyze data on patents, mergers and acquisitions as well as foreign direct investment. She/he will build an econometric model and estimate it. The results of the research will possibly be published in international journals.

Education and experience

The successful candidate must hold a PhD degree in Economics, Management, Statistics, or related disciplines. She/he should be experienced in empirical research with strong econometric skills. Interest and experience in mitigation policies, innovation, international technology transfer and renewable energies are desirable.

Full proficiency in English is required.

The successful candidate will work closely with faculty members of the department and will have the opportunity to interact also with researchers belonging to other Italian Universities.

Applications from international candidates are highly encouraged.

Type of contract and terms of employment

The appointment is full-time fixed-term for 24 months. Gross salary per year is of € 19.367,00. Total value (including taxes and social charges) is of € 22.946,00 per year.

The closing date for application is 12:00 (local time) on June 8, 2013.

The application form can be found at:
