

AIMS AND SCOPE

This is a periodical review for studies in the field of Social Sciences with emphasis on spatial and organizational dynamics as well as socio economic structural change.

The *Journal of Spatial and Organizational Dynamics* (JSOD) promotes analyses related to land use change, information systems and technologies, geographic information systems and science, economics and public policy, planning and local development, sociology, social psychology and social education, management and innovation. It is, therefore, a distinctive multidisciplinary journal.

It is published as a quarterly international review in open access, mainly composed of thematic special issues.

Any interested scholar can submit a proposal for the edition of a special issue to the Editor-in-chief. The proposal should follow the guidelines provided in the [Guide for Guest Editors](#).

Each article must follow the publication rules as in the [Guide for Authors](#) and the Guest-editors as well as the Editor-in-chief are responsible for the full application of a double-blind review process.

Editor-in-chief: Patrícia Pinto (pvalle@ualg.pt)

The [Editorial Board](#) gathers world renowned experts in different areas of Social Sciences.

JSOD Open Access Policy

Research Centre for Spatial and Organizational Dynamics currently publishes JSOD as an open access journal, with no subscription content and free of charges for authors. It permits any user to read, download, copy, distribute, print, search or link to the full texts of its articles. Articles are copyrighted by CIEO and can only be re-used, re-build or re-mixed with express permission from CIEO.

The articles in JSOD receive both rigorous peer review and expedited online thematic publication.

JSOD is diffused by all links related to the Research Center for Spatial and Organizational Dynamics and is open to access [HERE](#).
