RESEARCH SEMINARS 2021

## A BIBLIOMETRIC ANALYSIS OF TRUST IN THE FIELD OF HOSPITALITY AND TOURISM. AN APPLICATION OF BIBLIOMETRIX AND VOSVIEWER

Speaker: Hugo Palácios [CinTurs and Faculty of Economics PhD Student | UALG]

Abstract: The emerging field of trust has evolved dramatically with an increasing number of academic publications in this area. However, there is a lack of better clarification to draw a global picture of scientific knowledge, from a statistical perspective, using the three structures of knowledge: conceptual, intellectual, and social. The objective of this seminar is to present new insight into trust scientific production through bibliometric (Bibliometrix) and network (VOSviewer) analysis.

**15 JUL 17h00**

Faculty of Economics  
Universidade do Algarve

Online Seminar via Zoom

**Registration is free but compulsory  
until 13th July to: [cinturs@ualg.pt](mailto:cinturs@ualg.pt)**
